WHAT CAN I DO WITH AN L&S MAJOR?

SO MUCH! Advising at SuccessWorks is organized by career communities or clusters of similar fields. L&S paths from major to career are not always direct…and that’s what makes our alumni so interesting! Career communities are NOT meant to lock you into any specific track; they’re meant to help you explore areas of interest or curiosity. Explore one or more career communities that fit your interests. Check out our eight Career Communities below and examples of sub-industries within them.

COMMUNICATIONS, ENTERTAINMENT & THE ARTS
• Advertising, marketing, public relations, social media strategy
