SKILLS & ABILITIES

Vital Signs

- Collect blood pressure both manually and digitally while treating patients with respect
- Gather pulse from combative and/or unsteady patients, remaining cool and calm

Communication

- Present resident behavior and care information to colleagues during shift changes
- Provide detailed written information on changes to each patient's behavior, intake and output, rotation times, and incidents pertaining to care
- Respond quickly to teammate assistance requests, working calmly under pressure
- Promptly report concerns of patient behavior to the supervisor to ensure safety

First Aid & CPR Trained

- Familiar with techniques for stopping hemorrhaging and handling shock from blood loss
- Trained in dressing wounds, sores, and burns to prevent infection
- Educated on strategies for fall prevention and providing care and support after falls
- CPR and AED certified (expires October 2023)

CNA EXPERIENCE

Certified Nursing Assistant

February 2020 –

July 2021

Nicolet Care Staffing

- Traveled to various facilities such as nursing homes, independent living facilities, and assisted living communities to deliver a broad range of services to residents
- Provided care to residents with a broad range of care requirements, disabilities, and illnesses, ensuring that each individual's needs were met
- Accommodated to each facility's system of charting, communication, and emergency procedures to keep things running smoothly and collaborate effectively with other staff
- Assisted residents with daily living activities in a compassionate and respectful manner

Certified Nursing Assistant

June 2019 –

January 2020

Atrium – Point Manor

- Provided care and assistance according to each resident's care plan and requests, making adjustments over time as needed
- Collected vital signs efficiently while maintaining careful notes for other providers to rely on, following charting procedures and taking down all necessary information
- Assisted in transfers between facilities by coordinating with other staff, talking with families of residents, and helping residents into and out of vehicles
- Gave hospice care for terminally ill residents and postmortem care when residents passed away
